The nights are now warm enough for band concerts in the park. Members of the Philharmonic band are of the opinion that that organization will not do a great deal of playing there this summer. They also say, relative to subscrip-tions made toward the buying of instru-ments for the band, that while citizens paid #300 in that direction the band has paid several times as much.

The Wickersham gold mine in the Huachuca mountains has been pros-pected during the past few weeks by Mr. Corcoran who holds a bond on it. A fifty feet shaft has been suck which shows up a strong ledge of \$25 g.ld ors. The party bolding the bond has gone to San Francisco with the intention of p acing a mill upon the grounds.

Colonel Bean, former delegate congress from Arizona was in the city yesterday. Anent the statebood question he expressed the opinion that unless all four of the territories, Arizona, New Mexico, Utah and Oklahoma, went through none of them would. And if their statebood bills passed he believed President Cleveland would veto them, ordance with his expressions as to "admitting any more mining camps."

made by Thomas Deering. Mr. Deering brought is some rock in which the gold shows forth beautifully. He says the ledges vary from the thickness of a knife blade to several feet in width. He is now tunneling toward where he ba-lieves the main ledge to be, and in making expenses from the ore. A tine silver ledge lies near, from which Mr. Deering has taken 900 ounce ore.

The cut rates on the Southern Pacific to San Francisco and other points although extended will not be in effect for long. The following is the gist of a notice posted at the Southern Pacific pew city of Nogules. Political lines are station this morning: "To agents:-The reduced rates for continous first-class tickets named in our circular of the 26th met. will be discontinued, east Taxpayers' and Economy they were bound, Saturday April 7, 1894; west bound, Saturday, April 14. Commenc ticket wing on April 8th next the local rates, follows: bound, and on April 15th next the PEOPLE's. local rates west bound, will be those Hogan, which were in effect on the 2d inst."

In the railroad end of town they have a tramp exterminator. It is in George Proto, Secocan's and is a piano with a fif- at. Zeimet, Secocan's and is a piano with a hir attachment that goes by a crank. When a tramp comes in George gives the wink to the operator and the machine is started. It pours fourth a musical hash that never alls to give a tramp the colic.

THE MIDWINTER FAIR.

character eagerly sought by every one who reads. In the first place, what may be seen

there. Since August 24th last there has grown up in Golden Gate Park the most beautiful group of industrial palaces that the western sun ever shone up The public library has received the on, and it will be the wonder of the

and art.

To these main buildings have been added special State and county buildings, in which the products of different sections are emphatically particu-larized. Many of California's neighboring States have erected exposition structures of their own, and not a few of her own counties have added county buildings to the group. The area of the California Midwinter Exposition, is nearly two hundred acres, and it insludes more than seventy structures. Some of these buildings, as works of architectural art, are superior to the Columbian Exposition, and competent critics have said that for picturesqueaess and perfection of landscape effects his midwinter display in Golden Gate Park surpasses all efforts ever made in that direction. This is largely due to the generosity of Nature and the happy selection of a site by the promoters. The Park has world-wide fame for its

great natural beauty, independently of ts recent acquisition. Combine with this the artistic arrangement of these splendid architectural master-pieces, and the effect must be simply incom-The grandest engineering feature of he Exposition is the Bonet Steel Tower, which rises to an elevation of 272 feet 'rom the center of the quadrangle described by the four great palaces.

Elevators ascend almost to the top, and it stated intervals are three convenient palconies, the highest 250 feet above ground level, affording magnificent riaws of the grounds, park and surcoundings for miles in all directions. From the top are operated two power-'al flash lights, and the sides are a suc tession of dazzling and variegated inandescent bulbs, which at night-time ight up with intermittent splendor the whole superb setting.

It has been the endeavor of the Mid-

winter Fair distinctly typical of westas not been lacking to make many forsign features exceedingly prominent und interesting. Among the latter nay be mentioned, as meriting special attention, the reproduction of Heidelperg Castle, which represents an expenditure of \$50,000. For the average European this splendid feature needs 10 description. The mere sound of the name brings a rush of joyful memories of "das Vaterland." Then there is the Public Prater of Vienna, where refreshnents are accompanied by grand orthesiral and vocal concerts. Bits of old Paris, a Turkish theater, street in Cairo, Cafe Chantant, Alaskan village, Japaiese tea garden, Chinese village, & cyclorama of the femous Hawaiian volca-

noes, numerous other attractions may be found among the Oriental conces-To delight the heart of the old argonaut is a genuine mining camp in full operation, old adobe huts with tled roofs, typical of the days of '49; Indians, cowboys and bucking mustangs.

Special days have been set apart throughout the fair season for the individual observance and celebration by the various interests represented. For instance, England, France, Germany, Italy, Austria, Russia, etc., the several American States, Pacific Coast States and counties, societies and industries, each have their special day of jubilee, and these jubilees will be memorable

events. But the question of most serious moment in connection with the Midwinter Fair is, how can we all get there? Answered in a twinkle. The South era Pacific Company has made for this special occasion the most liberal rates ever offered for the benefit of the public, and placed within easy reach of every person on the Pacific Coast not only a visit to San Francisco and the Fair, but the chance of a lifetime to visit the many other attractions of California. It may be a long time before
